for real choices

Real is the registered working name of Real DPO Ltd (Charity: 1061671, Company: 03213172)

Taking Control of Your Life.

We provide *issue* based action planning support to help clients achieve their goal/aim.

Where the client has multiple goals and aims, we work with them to prioritise which issue they would like support with first and work through them sequentially.

The TCOYL project aims to work with individuals to encourage them to take greater control of decisions which affect their lives, access the resources and facilities which are available in their community and develop strategies to increase independence.

We have a very wide remit on what we can help clients with and can provide in-depth support and hand holding throughout the process and working with the client to liaise with professionals on their behalf.

Previously we have helped clients with

- Opening bank accounts, supporting to prepare the right documents and follow processes. Advisers cannot help with any financial transactions, managing of money or physically taking them to the bank.
- Identifying and accessing local services in the community.
- Finding funding for therapies, white goods, clothing, and adaptations.
- Personal Health Budgets.
- Accessing and getting funding for sport activities.
- Help with getting around the community, local parking permits, blue badges, mobility schemes.
- Becoming more employment ready.
- Help with setting up business
- Accessing educational support.
