

Dear Stakeholder

RE: Invitation to *Working Together Workshop* for the *Communities Keeping Well Programme*

The programme:

Communities Keeping Well Programme is a new health and wellbeing initiative funded by NEL Integrated Care Board and London Borough of Tower Hamlets Public Health and based within the Tower Hamlets' Primary Care Networks (PCNs) between 2024-2026. The focus is on co-producing a series of action plans with residents and stakeholders in order to prevent long-term health conditions and reduce health inequalities.

We're inviting you, as a valued stakeholder to the next stage of this programme to work with Healthy Island Partnership Network, residents, and other stakeholders in a **Working Together Workshop**. This will involve:

- Prioritising issues from previous consultation at Barkantine/ Millwall North community café
- Focus on connecting and networking with residents and stakeholders.
- Identifying and discussing community assets and services
- Co-producing an initial action plan

What we've done in Barkantine/ Millwall North:

1. Extensive community outreach and engagement including street conversations and door knocking reaching 80+ households.
2. A community café event at St Luke's Millwall on 29th May where local issues, emerging themes and potential solutions from residents were discussed regarding health and wellbeing. Community insights and themes will be shared at the workshop.

The workshop:

Date: Thursday 11th July 2024

Time: 9:30am – 12:30pm

Location: St Lukes Millwall, Alpha Grove E14 8LH

We hope you will be able to attend personally or send a representative.

Please RSVP to Leoca.powell@nhs.net by 5pm 8th July 2024

Best wishes,

COMMUNITIES KEEPING WELL
